

An online giving account is a way for your church to raise money via the internet. By setting up an online giving account people can give to your church without having to visit your church building. It is easy to set up an account through Parish Buying, with our recommended supplier SumUp, the mobile payments provider, and our specialist online giving service which works in tandem with a SumUp account.

Of course, other providers are available, but we feature this solution because it offers Parish Buying members an especially low transaction rate of 1.95% per donation, which we believe is the lowest in the market, and free Premium membership until the end of the year, making it easy for donors to make a Gift Aid declaration for their donation – but remember you will only get this rate and offer from the Parish Buying website.

you are raising money for, for example a youth group or church roof repairs.

Click 'Add campaign'. Here you will need to select a Campaign type. Select – 'web online' and click next. If you already have a contactless donations account through Parish Buying, you will see your campaigns for that account listed here.

Next you will need to select your layout. Pick the colour you would like, by clicking on Campaign colours.

In Heading write the name of your church.

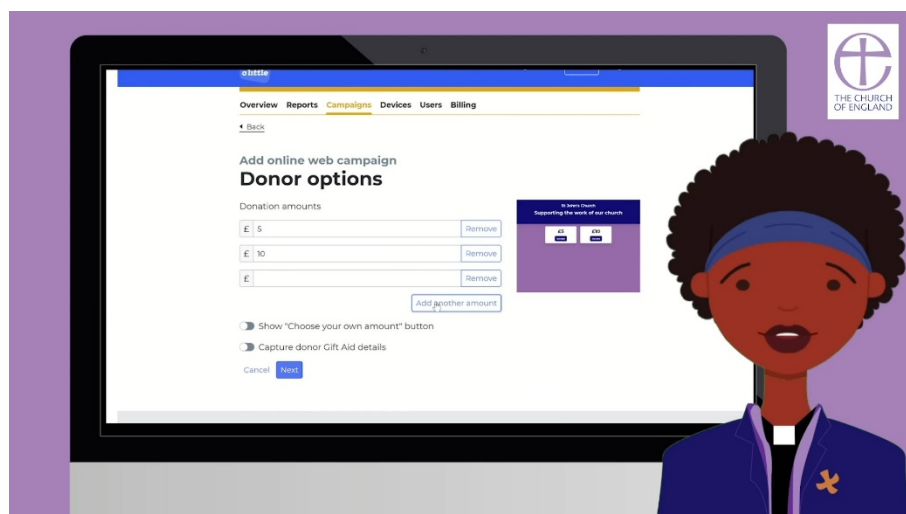

In message write a short tagline for your campaign, such as "supporting the work of our church".

Select the colour you would like, choose a colour from the palette or if you know the internet code of the colour you want you can enter that in here, otherwise just select a colour from the palette.

In donor options – enter your price points, we recommend having 3 or 4 amount options for donors to choose from.

Click 'Next'. Which brings you to the Thank you screen. Here enter your thank you message.

Enable 'offer donation receipt' if you would like to allow donors to be able to receive a receipt via email.

Next give your campaign a name – this will be the name associated with the donations, this is important as it is the way your treasurer identifies where the donation came from.

Enter a campaign name in the 'Name' field, (type in 'Supporting St Johns online' and click next.

Now you have entered all the details for your campaign. It's a good idea to do a quick check through to make sure all the details are correct. Once you are happy click on 'Publish'. And click on 'Yes I am sure'.

STEP 3 – Sharing your online giving page

Well done - you have created your first online giving campaign! Now you are ready to start sharing your page so people can give to your church.

In the top in green you can see a web address – this is the web address of your campaign. To share it,

click on 'All campaigns' and scroll down to 'web online' and click on 'copy link'. Open another tab in your browser and copy in the link to open your campaign webpage.

Now you can link your giving page to your website, Facebook page, or post it next to a YouTube video, streamed service, or the online giving animation available to download from A Church Near You.
